PROFILE

Full-stack software engineer specializing in Flutter mobile development and B2B SaaS platforms, with deep expertise in AI integration (RAG, LLM, embeddings). 9+ projects shipped, 4 B2B SaaS platforms in production, 4 professional experiences. ESPRIT graduate 2025. Available for freelance missions or permanent position.

EDUCATION

Engineering Degree – 5th Year	2023 – 2025
ESPRIT – Private Higher School of Engineering and Technology, Tunis	
Preparatory Class MP (Mathematics–Physics)	2020 – 2023
IPEIT – Tunis Preparatory Institute for Engineering Studies	
High School Diploma in Mathematics – Honors	2019
El Menzah 6 High School	

PROFESSIONAL EXPERIENCE

Flutter Developer (Final Year Internship)	01/2026 – present
Value Digital, Tunis, Tunisia	
Development of new features and integration of AI models for an Employee Empowerment application, improving employee engagement and productivity.	
Mobile Developer	07/2025 – 09/2025
MK Talent, Tunis, Tunisia	
Design and development of an educational mobile app integrating AI-powered personalized revision paths (LLaMA), with flashcards and adaptive quizzes, optimizing student learning efficiency.	
Flutter Mobile Developer	06/2025 – 08/2025
Krenova Consulting, Nabeul, Tunisia	
Development of a complete e-commerce application in Flutter with ExpressJS backend, integrating an AI recommendation engine and optimized interface, improving user experience and conversion rate.	
React Frontend Developer	07/2024 – 08/2024
Belive Technology, Tunis, Tunisia	
Development of an agricultural nursery management application with ReactJS and ASP.NET Web API, ensuring an intuitive interface and efficient data management.	

PROJECTS

InvoiceGuard — Duplicate Invoice & Payment Fraud Detection (B2B SaaS)	2026
Stops supplier fraud before it costs you. 4-level PDF analysis: SHA-256 hash (100%), exact field match (95%), same period $\pm 5\%$ (70%), semantic HNSW similarity (99%). Real-time alerts ranked by confidence. <i>Stack: Next.js 15, NestJS, PostgreSQL, pgvector, Ollama, BullMQ, Redis, Stripe, Kubernetes, Docker</i>	
ContractPulse — Smart Contract Renewal Tracker with RAG Chat (B2B SaaS)	2026
Teams upload PDFs to AWS S3; platform extracts content, generates embeddings, answers any contract question citing the exact page. Automatic renewal alerts at 90, 30 and 7 days before expiry. <i>Stack: Next.js 15, NestJS, PostgreSQL, pgvector, Ollama, Groq, AWS S3, BullMQ, Stripe, Jenkins, Docker</i>	
ReviewLens — Semantic Customer Review Clustering & AI Insights (B2B SaaS)	2026
Turns hundreds of customer reviews into actionable insights. Auto-groups by theme (K-Means + Silhouette), generates per-cluster AI summary, sentiment score and concrete recommendation. <i>Stack: Next.js 15, NestJS, PostgreSQL, pgvector, Ollama, Python, scikit-learn, BullMQ, Docker</i>	
StandupFlow — Async Standup Automation for Tech Teams (B2B SaaS)	2026
Members submit updates via Slack or web app. Every morning, the manager gets an AI-generated email digest summarizing the whole team's progress and blockers — no meeting, no manual aggregation. <i>Stack: Next.js 15, NestJS, PostgreSQL, Groq, Slack API, Stripe, Resend, Sentry, Docker</i>	
PrimeProf — Educational Mobile App	2025
Flutter app with NestJS and PostgreSQL, integrating AI-powered student/teacher intelligent matching. <i>Stack: Flutter, NestJS, PostgreSQL, OpenAI</i>	
Sports & Nutrition Coaching App	2024
Kotlin app with NestJS backend and Gemini API, generating AI-personalized sports and nutrition programs with detailed progress tracking. <i>Stack: Kotlin, NestJS, MongoDB, Gemini</i>	
E-commerce App with Admin Dashboard	2025

Complete Flutter e-commerce app with secure authentication and real-time data management.
Stack: Flutter, Firebase, Supabase

Cement Plant Sales Platform (hackathon)2024

Mobile sales management app with real-time field visit tracking and live price updates.
Stack: Flutter, NestJS, Google Maps, MongoDB

ESPRIT Community Platform (hackathon)2025

Reddit-like social platform with live podcast and personalized recommendations via OpenAI.
Stack: Flutter, NestJS, OpenAI

SKILLS

- **Mobile:** Flutter (Dart), Kotlin, Swift
- **Backend & Web:** NestJS, Next.js 15, TypeScript, REST API, Swagger, ExpressJS, ASP.NET
- **Databases:** PostgreSQL, pgvector, MongoDB, Redis, MySQL, Supabase, Firebase
- **AI & Pipelines:** Ollama (LLaMA), Groq, RAG / Embeddings, BullMQ, Python / scikit-learn, OpenAI, Gemini
- **Infra & DevOps:** Docker, Kubernetes, GitHub Actions, Jenkins, AWS S3, Stripe, Sentry
- **Tools:** Git, GitHub, Swagger, Postman
